Makes Scents Natural Spa Line:

Makes Scents Natural Spa Line is a husband-and-wife-owned company that creates all natural spa products for fine spas, salons and resorts nationally. We produce our own signature line of products, and we also custom-formulate spa products that salons can private label to make their brands even more memorable. Spas can buy our products in bulk to use in their clientele treatments or sell them on a retail basis in smaller units packaged in our eco-friendly, attractive containers. Our products are also available through the online store on our website.

In all Makes Scents Natural Spa Line products, we carefully select all-natural ingredients and combine them to create products that slough away dead skin cells and environmental toxins, that purify, and that tone and hydrate.

Makes Scents Natural Spa Line is the perfect fit for salons' spa treatment lines and for anyone looking for superior spa products with quality ingredients that produce soft, supple, and radiant skin.

[Hempfield Botanicals:](#)

Hempfield Botanicals embraces that wellness is the foundation for living a full and vibrant life. Our company creates all-natural, THC-free CBD (cannabidiol) products to help people find relief from pain and inflammation, sleep problems, anxiety, headaches, lack of energy, and more.

Our formulations contain whole-plant hemp CBD extracts sourced from sustainable farms in the United States. Unlike many other manufacturers, we make our products in a food-grade, quality-controlled, current Good Manufacturing Practice (cGMP) certified facility. We triple test every batch for potency, quality, and purity to ensure consistent, effective products every time.

Plus, each finished product batch is tested by [Green Scientifics Labs](#) to ensure quality and consistency. If you are interested in viewing a lab report for a specific product batch/lot, please reach out at any time. All lab reports are available upon request.

Driven by integrity, ethics, and the pursuit of excellence, we are committed to making products that will help our customers live more fully and freely.
